

RISK MANAGEMENT TEAM

Founded in 1994, ComplyNet has emerged as an automotive industry leader in Environmental Health & Safety, Sales & Finance, Human Resources, and Information Security compliance management solutions. ComplyNet combines on-site auditing services with intuitive software to assist dealerships in achieving regulatory compliance goals, mitigating risks, and retaining talent. For more information, go to www.complynet.com or call 800.653.1869

ENVIRONMENTAL HEALTH & SAFETY

Our on-site services, online training, and support create the infrastructure dealers need to reduce workers compensation claims and to save time and money. Our systems resolve paperwork and regulatory issues so that your managers can focus on generating revenue.

HUMAN RESOURCES

Human Resources compliance is critical in today's legal environment. Easily onboard new hires with online training and testing on important matters, such as sexual harassment and discrimination, along with training that is unique to job roles. With our e-Signature capture, you will never again chase down or search for unsigned policies.

SALES AND F&I COMPLIANCE

Limit liability and enhance compliance in your sales and F&I departments without requiring your managers to become compliance experts. ComplyNet consultants provide on-site transactional compliance thorough Deal Jacket audits, process assessments, and required compliance training modules.

INFORMATION SECURITY

Since 95% of breaches occur behind firewalls due to employee negligence, how can you afford not to train your employees on the importance of information security and safeguarding? We provide training, simulated phishing attacks, and remediation training for those who fail a simulated attack.

CMS platform includes e-Task, Online Training, Policy Sign-off and Doc Storage

Over the last few years ComplyNet has been transforming our onsite services and LMS into a Compliance Management System or CMS. A CMS is a solution that addresses the dealership in its entirety and puts everything under one umbrella. Our platform, that has been training dealership employees for over 10 years, now incorporates our brand-new Task Manager and our unique Monthly Self Inspections.

- ✓ Fully interactive dashboard reporting – Training reports emailed weekly to department managers
- ✓ Auto specific training every dealer needs including Haz Com – GLBA – DOT – Sexual Harassment and more
- ✓ Site specific plans and policies including Employee Handbook posted for review and E-Sign (12 CFR 609.910) Can be assigned/routed by store, department, and job role
- ✓ See every issue across your organization, including pictures, with our unique Task Management Platform (e-Task) Tracking and remediation couldn't be easier
- ✓ Monthly self-inspections keep your program on track in between on-site visits or as an enhancement to your current EH&S program
- ✓ Online Document storage allows quick employee access to basic forms like I-9, vacation requests, insurance requests, and special benefit forms
